1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claim 1-2 and those dependent thereon. are drawn to method of making a carbon fiber reinforced composite, classified in class 156, subclass various.
 - II. Claim 3 and those dependent thereon are drawn to a method for making a carbon fiber reinforced composite, classified in class 264 , subclass various.
 - III. Claims 4 and those dependent thereon, drawn to a carbon fiber reinforced composite , classified in class 428, subclass 408.

 - V. Claims 37 and those dependent thereon, drawn to a composite material, classified in class 428 subclass 408.

The inventions are distinct, each from the other because of the following reasons:

2. The Inventions of 1,2,3,4,5 are unrelated. There are 30 possible combinations of unrelated inventions. In the instant

case the different inventions have different effects. If the applicant elected one of the products, rejoinder may be permitted if it can be shown that the corresponding method claims are commensurate in scope. The applicant is encouraged to review the appropriate sections of the MPEP.

3. Because these inventions are distinct for the reasons given above and the search required for Group any of groups 1-5 are mutually exclusive restriction is proper.
